

# What do you really want for Christmas?

On your 130th birthday, the doctor wonders  
why you look 22 years old

You don't look  
a day over 90.

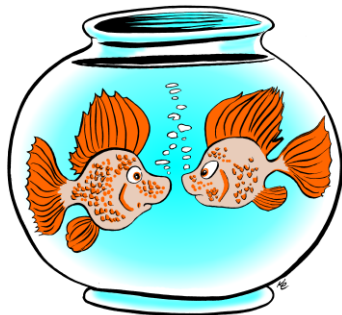

Your car gets 3,200 miles per gallon and runs on  
coffee grounds

Starbuck's  
gets 3,217 mpg!

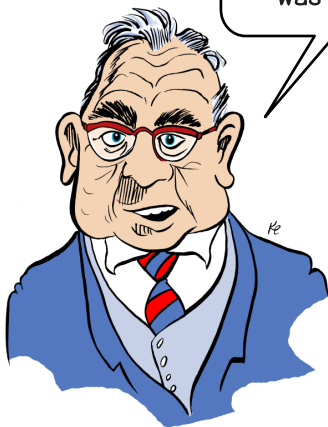

A lifetime with someone  
worth spending that  
much time with

Happy  
Holidays

Your boss  
finally says:

Y'know? You  
were right and I  
was wrong!
