

Killer Asteroids!

Everybody's doomed. Happy holidays.

Oh my goodness!

Santa and Rudolph
to the rescue!

Kee
2011

In the off-season Santa and Rudolph patrol space for dangerous asteroids. Saving every living creature on Earth -- not a bad Christmas present for Humanity!

And on Christmas morning ...

Cool! Look at the sock of gravel Santa left me!

That's cool??

They're rocks from the asteroid they blasted. Do you know how much those are worth?!

Happy Holidays

What, didn't you hear that the North Pole operation is now a division of Homeland Security?

They made me a GS-21. You have to be a Saint to qualify!
